Score(0~45):

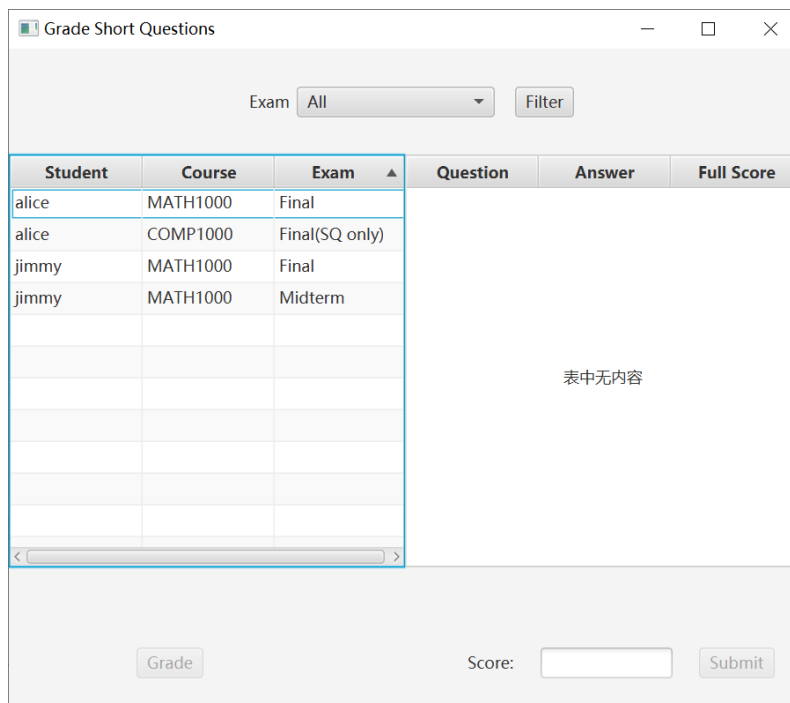

Submit

Select a exam and click Grade, only short questions records of the submission are shown. The first column is the question, the second column is the student's answer, the third column is the full score of that question.

Submit button becomes available, the range of the score (the sum of full score of all short questions) are shown.

Enter 30 and click submit.

The score of the submission is updated and the submission is removed from the left table.
